

MATIAS ALASAGAS JR

Graphic Designer

I have been a professional Graphic Designer for over 12 years, specialized in Advertising ads, Book Cover Design, and Corporate ideas. I am currently working as a Graphic Designer at SPDSigns at North York Toronto. Handling both design and supervising the production of digital output such as Banners, Boards, Signs and etc. using super wide printers. and engravers Over the past years, I was employed with various U.S. based publishing and advertising companies and was privileged to handle different accounts and clients which helped me broaden and honed my skills as a designer. Through my work experience, I was also able to adopt different techniques to help me to master my field and be more efficient. Being able to handle different accounts also helped me master different graphic design software.
